Our business recently had the privilege of attending Sharpie's workshop on cultivating culture in the workplace.

Over four days, Sharpie shared his expertise and insights on fostering a great workplace culture. The workshop has left a lasting impression on our team, providing us with a wealth of valuable takeaways that we can implement immediately in our business. In addition to his abundance of experience and knowledge, Sharpie brought an infectious energy and ability to tailor and deliver complex concepts in a simple format, that is relevant at all levels.

We extend our heartfelt gratitude to Sharpie for his brilliant guidance and expertise and would absolutely recommend him to any type of organisation. We have a whole new set of tools in our toolkit, our team are motivated and united, and we had a whole lot of fun along the way!

## How you and your team will benefit

- A team with clearly articulated and documented actions that will improve team member connection, clarity and capability as a platform for greater commitment and performance
- A clear set of team expectations and a common language for future team discussions and conflict management
- A new level of motivation and confidence in team resilience and cohesion
